PROFESSIONAL SUMMARY

Full Stack Developer with hands-on experience building responsive web applications using Laravel, PHP, Vue.js and TypeScript. Skilled in developing RESTful APIs, organizing maintainable application architecture, and working with relational databases. Comfortable contributing across the development lifecycle, from interface implementation and third-party integrations to query optimization and testing. Focused on writing clear, reliable code and continuing to grow through practical projects and modern development tools.

EXPERIENCE

Full Stack Developer

2026 - Present

NbtHub | HaroonAbad, Pakistan

- Build and maintain scalable web applications using PHP, Laravel and Vue.js.
- Design RESTful APIs and integrate third-party services.
- Develop responsive user interfaces with Vue.js, TypeScript and Tailwind CSS.
- Design MySQL schemas and optimize database queries for maintainability and performance.
